In instances of technical problems at ATMs for deposit/withdrawal and at machines for depositing BGN or EUR bills, it is possible that the deposit and/or withdrawal services will be temporarily unavailable to clients.

Owing to the specificity of the banking practice in the USA, the beneficiary bank could possibly collect its expenses from the amount of the transfer, regardless of the requested instruction of the originator for bearing all expenses. In such a case the transfer is effected without requesting additional consent from the CLIENT and without submission of information by the BANK to the CLIENT prior to effecting the transfer.

61. The BANK shall effect transfers of funds on an order of the CLIENT provided that there are sufficient available funds in the account indicated thereby. The BANK shall not make partial payments on individual payment orders. If the transfer would not be performed the BANK will notify the CLIENT through the ProB@nking Internet banking.

It is possible for such transfers to be blocked by the Bank or by its correspondents, for additional documents to be required or for the amounts ordered to be lost/delayed. In the case under the previous point of these General Terms and Conditions the performance deadline for the payment transaction ordered on the part of the BANK will count from the moment of the additional confirmation of the payment operation, despite the fact that a different arrangement may have been agreed in the General Terms and Conditions for Payment Services, applicable to the respective bank account agreement.
